DELIVERING PROGRAMS
ON TIME, ON BUDGET, AND TO CLIENT EXPECTATIONS

April 2024: Our Team is Growing!

At FLAG, we are passionate about making a difference in the world by helping our clients deliver critical infrastructure projects that improve the lives of communities across the country. We're also committed to creating a workplace where our employees can thrive and reach their full potential.

If you've got an entrepreneurial spirit, pay attention to the details, and are up for challenges you won't find in a regular job, we want to hear from you.

Check out some of the roles we are often hiring for...

| **Document Control Specialist** | The ideal candidate will be responsible for ensuring the accuracy, security, and timely management of documents related to infrastructure bond programs. This role is key to maintaining the integrity of project information, supporting our mission to deliver exceptional client experiences and contribute to the success of our projects. |

| **Project Scheduler** | Our Project Scheduler develops, maintains, and manages schedules for multiple projects, ensuring they meet our strategic goals. This role requires excellent communication skills to serve as a bridge between our team and stakeholders, and proficiency in scheduling software like Primavera P6 and Microsoft Project. |

| **Program Manager** | This is a highly dynamic role that requires the ability to implement a wide variety of projects.

For example, in a single week we have: |

- Served as a Product Owner for updating existing software or introducing new software
- Written content for a new website
- Led efforts to analyze pricing strategies
- Overseen and supported our client's subcontractors
- Mapped processes with subject matter experts

Financial Analyst

This position requires knowledge of and experience with local government financial and accounting practices, as well as excellent analytical and problem-solving skills. Daily tasks may include analyzing financial data, creating reports and presentations, budgeting and forecasting, participating in audits, and communicating with stakeholders in local government.
