DELIVERING PROGRAMS  
**ON TIME, ON BUDGET, AND TO CLIENT EXPECTATIONS**

## January 2025: Projections for the New Year

With the bonds approved in Travis and Caldwell counties, 2025 promises to be a transformative year for Central Texas. These bonds will fund critical infrastructure projects, including road expansions, public facility improvements, and enhanced safety measures. FLAG is eager to play an integral role in managing these initiatives, ensuring they are completed on time, within budget, and to the highest standards.

## 2024 Recap

2024 was a milestone year for FLAG, as we participated in several groundbreaking ceremonies across Central Texas. Highlights included the Marketplace Avenue Extension in Kyle, part of the city's 2022 Road Bonds, and infrastructure projects tied to the Hays County Bond Program. These events represent critical steps toward improving connectivity and safety for our communities.

We were thrilled to connect with industry leaders and municipal representatives at key conferences throughout the year. At the MGO Conference, we shared insights on the infrastructure work completed in Travis County, while the ICMA Conference gave us an opportunity to host an exhibitor booth and engage with industry colleagues. Additionally, both Craig Starcher and Vanessa Rizza represented FLAG in keynote events at Texas State University's McCoy Business School, sharing insights and advice to students.

## Strengthening Our Communities Through the FLAG Foundation

In 2024, Patriots Hall officially opened its doors, becoming a vital resource and gathering place for veterans in our community. As we head into 2025, the Veterans Book Club will continue to be hosted here, providing a space for connection and personal growth. We're also exploring new ways to expand the foundation's impact, from additional events at Patriots Hall to partnerships with organizations like Echelon Front to further support the veteran community.
