## February 2024: FLAG Current Events

At Front Line Advisory Group, we are revolutionizing the construction industry and transforming client expectations by obsessing over the basics of budget oversight, schedule enforcement, compliance, vendor management, and stakeholder communication.

## We're Hiring!

Our team has been doubling in size each year for the last three years, and we expect to triple in the next five. We're looking for amazing people ready to jump in as leaders, help steer our future projects, and play a big part in our company's growth.

If you've got an entrepreneurial spirit, pay attention to the details, and are up for challenges you won't find in a regular job, we want to hear from you.

**Business Data Analyst**

We are seeking a Business Data Analyst in Dripping Springs, Texas, with experience in software development, has an eye for details and deciphering data, and is a problem solver, not finder. This is a highly dynamic role that requires the ability to implement a wide variety of projects

**Municipal Finance Analyst**

Our team needs a cross-functional person, who can see the big picture as well as mind the details. We are looking for someone who communicates effectively in writing and in person, works well with a team, and completes projects on time with minimal supervision.
